Subject: CEC Council Session in Oklahoma City

Anne,

I wanted to inform you of an event involving the Administrator that will be happening in your region later this summer. On June 26-27, Administrator Pruitt will be hosting the 2018 Council Session of the Commission for Environmental Cooperation (CEC) in Oklahoma City, Oklahoma.

The CEC was created by the governments of the United States, Canada, and Mexico through the North American Agreement on Environmental Cooperation (NAAEC), which is the environmental side agreement to the North American Free Trade Agreement (NAFTA). The Council is the governing body of the CEC, which is composed of the Environmental Ministers of the three countries. The Council meets annually, alternating the chairmanship and location among the three countries. This year the Council is chaired by the United States and the Administrator will be hosting his counterparts from Canada and Mexico at the Council Session in Oklahoma City.

The 2018 CEC Council Session's theme centers on innovation and partnerships for green growth. The agenda and logistic details for the 2018 Council Session are currently being discussed among the three countries, and I will share it with you once it is finalized. Please feel free to contact me should you have any questions.

Best regards,

Jane
